Caltrans Approved 24 Hour Water Pollution Control On Construction Sites:

Designed for SWPPP Preparers and Water Pollution Control Managers (WPCMs)

Covers Newest CALTRANS Template and GCP Requirements.

This course was developed and is taught by experienced professionals currently working in the field for Caltrans, City, County and local Agencies on water quality issues. Lecture and instruction is backed by hands on BMP experience that is proven and effective in the field. Students are encouraged to ask questions and discuss current, past or future projects related to storm water compliance.

**Three (3) day
training: \$500.00
Lunch Included**

Course Covers Current and Newly Adopted Statewide General Construction Permit Requirements:

- Caltrans & CASQA SWPPP Templates and manuals as course materials.
- Forms, BMP Inspection and Estimating, SWPPP Cost Breakdown, hands-on exercises
- Inspection and Maintenance
- Look ahead to new permit requirements
- New methods and technologies
- Preparation of a Sampling and Analysis Plan (SAP)
- Proper Selection and Installation of Construction BMPs
- Preparation of the SWPPP/WPCP, including hands-on exercises
- Review coming **MAJOR** changes in the **State** and **Federal** Storm Water Programs
- Understanding Water Pollution Control Specifications and Contract Special Provisions
- Water Quality Sampling Techniques, Reporting, and Analysis of Water Quality Data
